Rafael Sánchez

Software Engineering Student

PROFILE

I am a dedicated, ambitious, and hardworking 5th-semester software engineering student. I am not afraid to roll up my sleeves, work hard, and take ownership of my responsibilities to ensure successful outcomes. With my ambitious mindset and unwavering determination, I have set out to run a half marathon before the end of this year. I am not afraid to put in the hard work and discipline required to achieve my goals, and I am committed to staying focused and motivated until I cross that finish line.

EDUCATION

Software Engineering August 2021 - June 2025
Horsens, Denmark • Software Engineering

Relevant coursework:

1st semester project: University management system and web page designed following the waterfall method and implemented with HTML, CSS, and Java.

2nd semester project: Library management client/server system designed following the SCRUM methodology and agile principles, and implemented with Java and Postgres.

3rd semester: Three tier distributed system designed following the SCRUM methodology and agile principles, and implemented with .NET, Java, SpringBoot, and Blazor.

Computer Engineering 2020 - 2021
Córdoba University • Computer Engineering

I passed the first year of computer engineering at Cordoba University.

Relevant coursework:

Algorithms, Algebra, Object-Oriented Programming, Physics, Economy

Bachelor in the field of technology science 2018 - 2020
Trinidad, Córdoba, Spain • Technology Science

WORK EXPERIENCE

Fullstack Intern Developer 2023
Magtel • Internship

In charge of the company's management system full-stack migration from Laravel views to Angular.

Key Responsibilities and Achievements:

- Successfully spearheaded the migration of the company's management system from Laravel views to Angular, resulting in a more responsive and user-friendly interface.
- Acquired hands-on experience with Angular and Laravel frameworks, effectively leveraging their capabilities for system enhancement.

Scrum Master - semester project

09/2022 - 01/2023

I took the role of Scrum Master during the 3rd-semester project.
Some of the tasks I performed as a Scrum Master:

Acquired Knowledge:

- Scrum Framework: I learned how to apply the Scrum framework in a real-world setting.
- Agile Methodology: I learned the benefits of agile methodology.
- Communication and Collaboration: As a Scrum Master, I learned how to guide the team and encourage self-organization and collaboration.
- Problem-solving and Decision-making: I learned how to identify issues that could impede progress and how to work collaboratively with the team to find solutions.

Courier

2022 - 2023

Just Eat • Part time

In charge of picking up the order and delivery to the customer.

Acquired knowledge:

- Stay focused for long time
- Work efficiently
- Experience with customer service and interacting with customers
- Ability to resolve unexpected issues.

Dishwasher

10/2021 - 12/2021

Dolly's • Part time

In charge of cleaning the kitchen tools, cleaning the kitchen, and closing the restaurant.

Acquired knowledge:

- Work under pressure
- Time management: Dishwashing requires a lot of multitasking and efficiency in completing tasks.
- Teamwork: Working in a busy kitchen with other staff members requires good communication and teamwork. Dishwashing can teach one how to work effectively as part of a team.

HOBBIES

In my free time, I enjoy exploring new cultures and cuisines by traveling and trying out new restaurants and cooking different international dishes at home. Additionally, last September I started practicing sports daily and getting in shape. After 1 year, the sport has become a fundamental part of my life and my routine, achieving incredible goals such as losing 40 kilos in this period of time.
